Mrs. Eszter Horváth Tóthné

Vienna, 30/05/2009

## Statement

The ECA (European Conductive Association) as officially registered body aims to ensure quality in academical training and conductive working performance within the EU. Ordinary Members of ECA are national conductive societies.

“Move & Walk” with its director Mrs. Eszter Horváth Tóthné (qualified conductor) for ECA serves as the most important Swedish conductive centre and as motor of the national Swedish conductive society. We appreciate Mrs. Tóthné as a highly professional and engaged specialist in conductive rehabilitation and education. She is an active member of the executive board and works in different bodies within the ECA in order to preserve the original conductive quality.

On behalf of ECA I am pleased to state that “Move & Walk” up to now employs ECA recognized conductors. By employing recognized qualified conductors and the leadership of Mrs. Eszter Tóthné “Move & Walk” becomes an outstanding example and guarantee for profound conductive work adapted to Swedish national circumstances and needs.

Helga Keil-Bastendorff

President of ECA

Physiotherapist, Nursery teacher, Honorary Conductor
